EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS

Claim 28, line 1, the word "medium" has been deleted and replaced with the words -- liquid conductive composition --.

Claim 29, line 1, the word "medium" has been deleted and replaced with the words -- liquid conductive composition --.

Claim 30, line 1, the word "medium" has been deleted and replaced with the words -- liquid conductive composition --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **19 and 28-30** are allowable over the prior art of record because the prior art does not teach or suggest a liquid conductive composition for electrolytic use, comprising a cobalt salt, a zinc salt, a polar aprotic solvent of said salts and a cobalt

ligand.

The prior art does not contain any language that teaches or suggests the above. *JP 56-5541* does not teach a polar aprotic solvent of said salts. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Claims **20-21 and 24-27** are allowable over the prior art of record because the prior art does not teach or suggest a process for the electrolytic synthesis of an organozinc compound comprising the step of subjecting to an electrolysis on an inert cathode a composition comprising a cobalt salt, a zinc salt, a solvent, a cobalt ligand, and an organic halide, and recovering said organozinc formed by said electrolysis.

The prior art does not contain any language that teaches or suggests the above. *JP 56-5541* does not teach a process for the electrolytic synthesis of an organozinc compound. *JP 56-5541* teaches coating the mixture onto a support as a film and drying to obtain a photosensitive heat-sensitive layer (abstract). Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edna Wong whose telephone number is (571) 272-1349. The examiner can normally be reached on Mon-Fri 7:30 am to 5:00 pm, alt. Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
